

HOW TO BUILD YOUR CUSTOM COUNTRY WOOD STOVE...

Follow these 5 simple steps to customize the look and performance of your Country wood stove.

1 Choose the wood stove that matches your heating needs

Heat output and heating capacities will vary depending on installation and your individual home – ask your dealer for selection assistance.

Stoves:

- S160 (Choose – Arch or Traditional Door)
- SS210 (Traditional Door only)
- ST210 (Arch Door only)
- S260 (Traditional Door only)
- ST310 (Traditional Door only)

2 Choose door style and finish

Door Style

- Traditional Door (available on all models except ST210)
- Arch Door (available on S160 and ST210 only)

Finish

- Black, 24-karat gold plating, brushed gold plating, nickel plating, or brushed nickel plating

3 Choose glass

- Plain
- Etched – Cattails, Floral, Sails, or Evergreen

4 Choose the base

Legs:

- Cascade steel black
- Olympic cast – choose black, 24-karat gold plating, nickel plating, brushed gold plating, or brushed nickel plating

Pedestal:

- Standard or ash drawer

5 Add a variable speed 700 CFM blower for more even heat?

Country's optional variable speed blower is the largest available on any stove and far quieter when compared to any other at their highest setting. Available for all Country freestanding wood stoves.

DOOR OPTIONS

Traditional Door

Arch Door

GLASS OPTIONS

Cattails

Floral

Sails

Evergreen

LEGOPTIONS

Country Stoves provides a wide variety of options including "tarnish-free" 24K gold plating, allowing you to add distinction and a personal touch to your handcrafted Country wood stove.
